How to record

- **Talk to one friend.** This topic protects people, so sound caring and confident, never scary.
- **Telugu lines (🗣️)** are the heart lines: say them slower and closer to the camera.
- **Hold the phone upright** at eye level, an arm’s length away. Leave a little space above your head, and keep your head near the top-centre of the frame.
- **Light:** face a window or lamp, and wipe the lens first.
- **Finishing:** after the last line, **stay still and smile for 2 seconds** before you reach for the phone. Then I can cut cleanly.
- **Sending:** 720p, under 30 MB, sent here in the chat.

📷 **FULL FACE:** ***like telling a friend, half-smile.***

Your phone rings: you are under digital arrest!

🗣️ **భయపడకండి, ఇది scam.**

And this week the Supreme Court asked who should pay for it.

🎙️ ***clear, news voice.***

On October 29th, in its suo motu case, the Court proposed that banks compensate victims when their own negligence let the fraud through. Over 21,000 complaints, and 647 crore rupees lost, in just 8 months of this year.

🎙️ ***firm.***

Exam fact one: there is no such thing as digital arrest in Indian law.

🗣️ **Video call లో CBI, police, ED, ఎవరూ arrest చేయరు.**

🎙️ ***lift your energy: “the pair UPSC loves”.***

Now the look-alike pair UPSC loves: I-4-C, the cybercrime coordination centre, is under the **Home Ministry** and runs the **1930** helpline, while CERT-In is under the **IT Ministry**, under **Section 70B** of the IT Act.

🎙️ ***slower, “write this down” voice.***

Why did the Court ask states to consent to a CBI probe? Because police is a **State subject**. Prelims trap: the CBI is **not a statutory body**; a Home Ministry resolution set it up in 1963, and its powers come from the DSPE Act of 1946.

📷 **FULL FACE:** ***warm, smile.***

Remember: no digital arrest in law, and call 1930.

🗣️ **ఈ video మీ family తో share చేయండి**, and follow for one exam trap every day!

(Stay still and smile for 2 seconds.)
